THE SPOILS UNHEEDED.

Word is sent forth from time to time that Tammany holds its feathers high and scorns to make any effort to grasp the Federal spoils. It seeks not the scalps of office-holders of a hostile tribe. Mr. Richard Croker has gone South. Mr. Murphy's voice is silent. The great orator of the Wigwam declares that bewill study finance and tariff, and will not be an office-beggar for his friends. Can it be that Tammany understrappers are usurping the places of the big chiefs, and seeking for the spoils on their own book?

Mr. Croker and the other chiefs of the Ring ought to look to this. They have determined on a praiseworthy course. They are more anxious for principles

They are more anxious for principles than for places. They should not allow any of their less scrupilous followers to put them in a false light, and by applying for office in their name, spoil the good record they are making.

The Tammany leaders do well to fore go spoils-seeking. It cannot be any great disappointment to them if they get none of the Federal patronage, because they declared officially their conviction that Mr. Cleveland could not be elected, after his nomination. And they will win credit for unseifshness, and for a desire to consider the public interests before the gratification of their personal and party desires.
